

Prepare for IACA Certification

Our Essential Skills online classes were specifically designed to help you prepare for and pass the Certified Law Enforcement Analyst exam. Combined, the classes cover all chapters of the "Exploring Crime Analysis" book published by the IACA. Each class is taught by a Certified Law Enforcement Analyst and over 40% of current CLEA's have taken one or both of the Essential Skills classes.

A format for your busy schedule

Both classes are held online over 12 weeks. There are no live sessions, so you can complete the work whenever it fits your schedule! If you get busy and can't complete the work, you can transfer to a later session without having to pay the full fee again.

Why Choose Us

Each class is worth 4 points towards CLEA testing eligibility and awards a certificate upon completion.

Each class is only \$395 for IACA members or \$445 for non-members.

The IACA is the premier source for crime analysis training. Combined, over 1,400 analysts have taken an ES course!

Build a strong foundation of the concepts, techniques, theories, and skills most useful to crime analysts

Essential Skills I Topics

- Overview of the fundamentals of crime analysis
- Understanding the criminal justice system (Ch.1)
- Law Enforcement models (Ch. 2)
- Understanding criminal behavior (Ch. 3)
- Law Enforcement Data & Crime Analysis data sources & Internet resources (Ch. 4 & 5)
- Data Integrity (Ch. 6)
- Research Methods & Qualitative analysis (Ch. 7 & 10)
- Interpreting crime data & statistics (Ch. 8 & 9)

Essential Skills II Topics

- Spreadsheet operations (Ch. 11)
